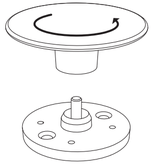
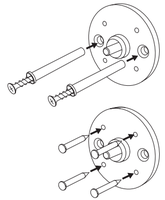
1. Hook Installation

①



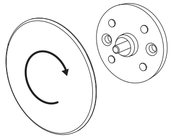
Open the hook by hand. No tools are required.

②



Fix the hook base to the wall. Choose either of the two installation methods shown in thediagram.

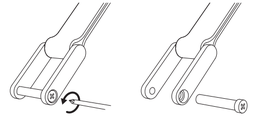
③



Rotate and tighten the hook to close it.

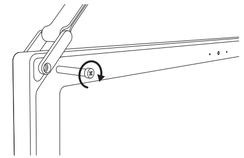
2. Hanging Cord Installation

④



Use the screwdriver to loosen the screws on the fasteners attached to the hanging cord.

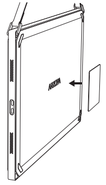
⑤



Attach the hanging cord to the C1 Pro unit.

3. Protective Pad Attachment

⑥



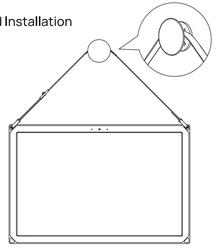
Tip: If a metal wire is positioned near the logo area on the back of the C1 Pro unit, attachthe white pad to the back of the unit first. Then attach the hanging cord and choose the most suitable position for the anti-slip pad.

⑦

Remove the release film from the adhesive backing, then stick the anti-slip pad to the back of the unit.

4. Finished Installation

⑧



Desktop Stand Installation
